

Build a Tool Tote

With Nick Cioni

Class Title: Build a Tool Tote with Nick Cioni (CNC040718)

Class Description: Students will build a custom tool tote using hand tools and traditional construction techniques.

Students will learn measurement and layout techniques while developing the ability to cut parts to size and assemble multiple components to complete their custom tool tote.

Instructor: Nicholas Cioni (ncioni@yahoo.com) is an accomplished luthier, craftsman and certified teacher in the state of Illinois.

This class is designed for beginners and those interested in learning basic hand-tool skills. Students without prior woodworking experience are welcome. Parents are welcome to register their children (ages 10+).

Location: CU Woodshop School of Woodworking, 1302 Parkland Ct., Champaign

Class Date & Time: Saturday April 7, 2018, 9am-12pm

Total Classroom Time: 3 hours

Number of students: 8 (max)

Cost: \$75 includes all parts and materials

Prerequisites/skill level required: No prior wood working experience is required. Beginners are encouraged! Students must be ages 10+.

Materials and Supplies needed: The instructor will provide all tools and materials required for this class. Safety glasses and hearing protection are available if students do not bring their own. Closed-toed shoes required .
